

Timothy, are you seeing red again?

No mom. Well if you do, you can tell me, okay?

Don't listen to her kid. She doesn't know what she is talking about.

These are your danger sensors. She wants you to think that there is something wrong with

you. This bitch conned an entire public into thinking that she was cured of cancer.

We need to find a gun and shoot her in the head! Why do you want gun?

Timothy? What are you talking about? Timothy?!

Mom, I need, gun...The mother stumbled back in shock and fell off the balcony screaming

hysterically. Police report detailed that Timothy's mother split her head open thanks to a

road sign on the way down.
